Draw result in sealed envelopes were handed over to head of IS team Dave Deane for the whole event. The IS are authorized to open their own envelopes (only) at the entering/changing the busses and based on the drawn beats to divide the competitors to the busses. The SJ and their assistants will open up their envelopes at the arrival to the 1st drop-off point.

Blank substitution forms provided to the captains.

The captains are asked to make sure that the competitors are having their badges filled-in properly based on assignment to their groups.

### **Stocking plan**

Cornisello sept 190 kg char, 300 kg Brown trouts.

Pinzolo, Tione no stocking; Arco 600kg BT, 50kg MT

Teams are responsible to be in the morning at the parking place of the Grand hotel Terme early enough for the leaving of the busses **latest at 5:45**. All busses will leave the main hotel, no stop over on other hotels.

**Lunch** - packed lunch for all participants for 1. and 3.competition days, provided at your hotels. Water will be included into the packed lunch, some more water provided for each buss.

### **Competition information**

Time schedule is very tough be sharp latest at 5:45 be on parking place at Grand Hotel. Busses will be marked by sector name and group with colour code. There will be 3 busses for each sector (except Noce with only 2 busses). IS will be responsible for dividing the competitors into the busses.

Cornisello – rotation leaves as defined in RM. If captains is willing to coach his/her competitor he/she must be there 30 mins earlier, he can go to the beat with his/her competitor and stay till the end of the rotation with him. Rotation break can be used for coming/leaving the sector. As

the path around the lake is too close to the beats, it can not be used during the session as this would cause the disturbing of the other competitors. Competitors fishing the lake either in the morning or afternoon, can leave both sets of their gear in the bus!!! After the morning session on the way to Pinzola/Cornisello at the bus stop NAMBRONE, they will be asked to change for another buss with all gear. The swap will be managed by IS.

**Safety policy** – in case of heavy rain, please be aware the water can rise very quickly. Medical treatment provided at each sector.

In case of any doubts with the size of the flies or thickness of the fly lines, the Sector judges and International supervisors are equipped with the measuring gauges – contact them prior the session starts to check.
